VERTICAL TENSION ANODE STRING

CELEBRATED ENTERPRISE IN CATHODIC PROTECTION

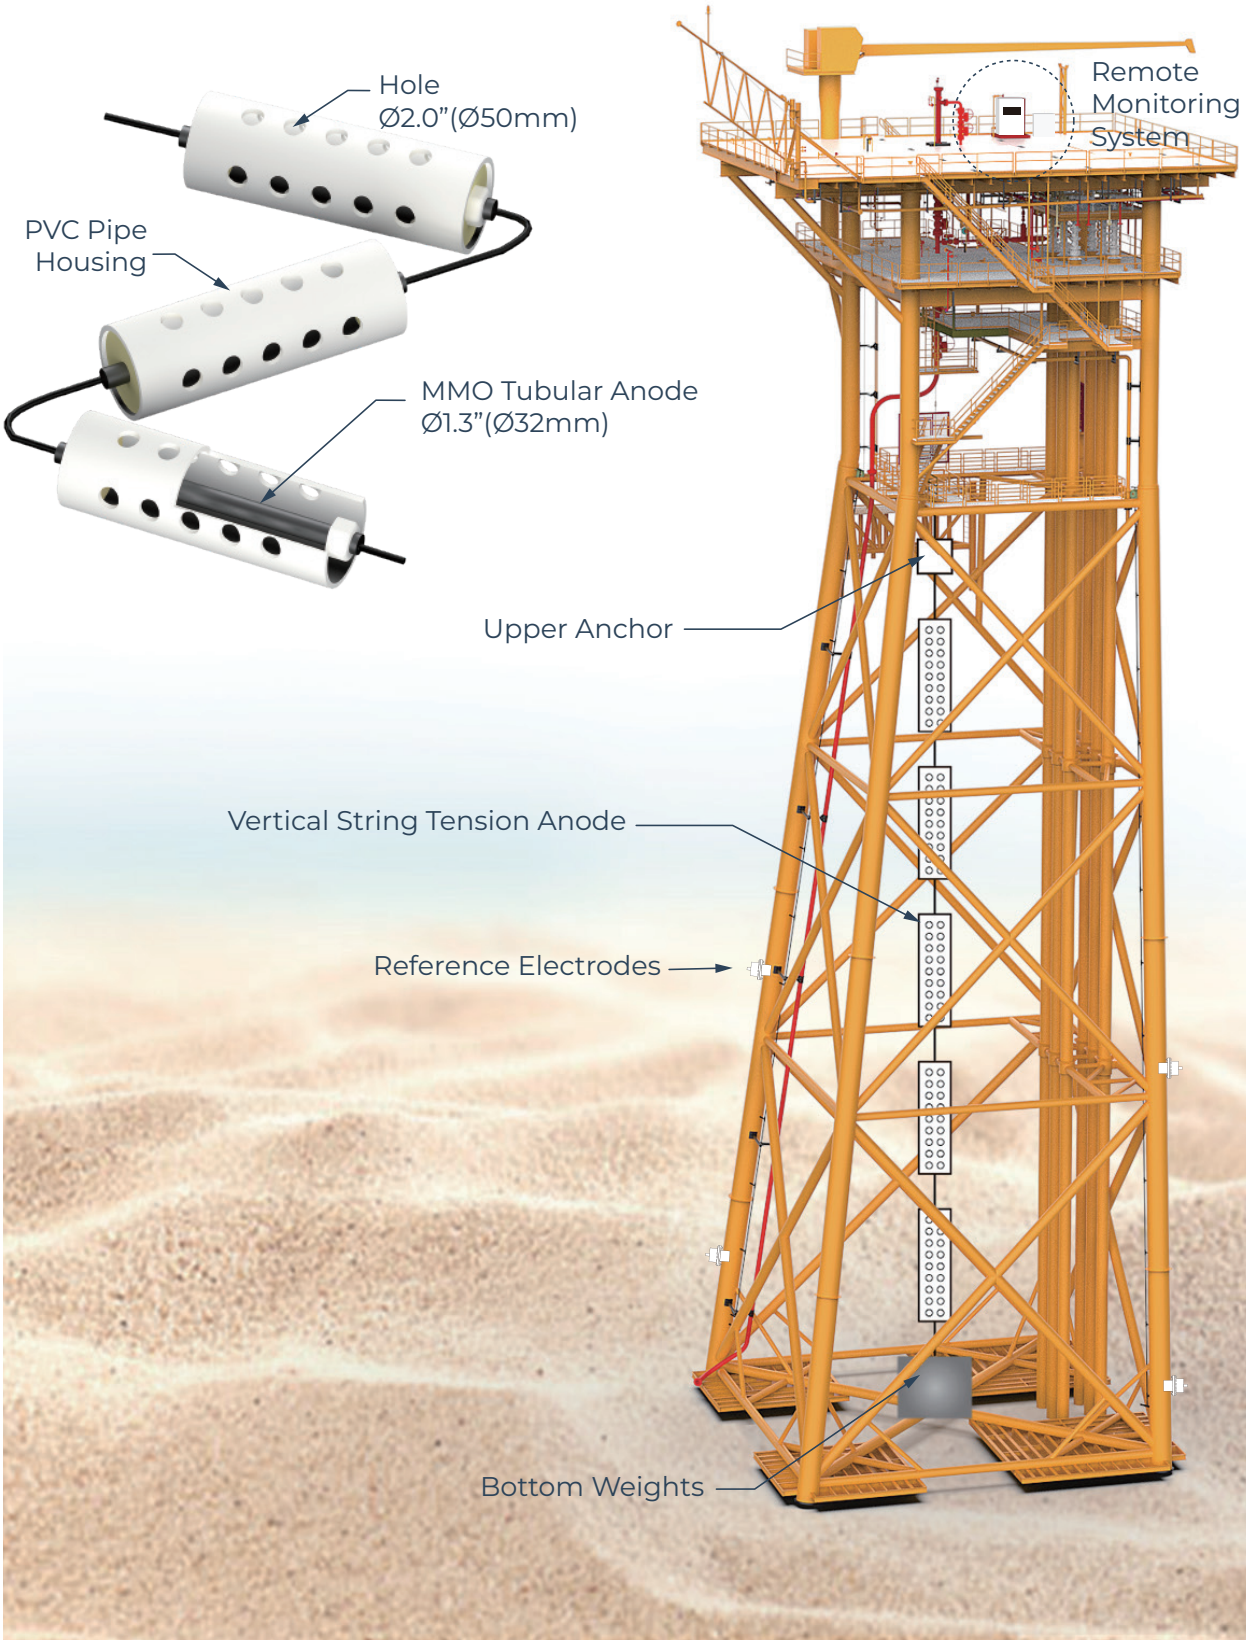
JENNINGS ANODES

VERTICAL TENSION ANODE STRING

DATA SHEET

JENNINGS ANODES

This vertical tension anode string is an anode array that comprises a series of MMO tubular anodes chained onto an electrical cable. The MMO tubular anode secured into the perforated PVC casing pipe, is made from titanium tubes coated with a mixed metal oxide catalyst. Regarded as a cost-effective option used in the impressed current cathodic protection systems of offshore or marine structures, it can be installed without divers or ROV equipment.



Worldwide Service Network

Our worldwide network of sales and service centers can provide immediate advice and assistance on the complete range of products.
